

Dear FCC

I cannot express to you the importance I feel in your not allowing the LPFM stations to take precedence over the FM stations now being listened to in my area. More specifically is that of the station known as K-Love. this is a very important part of my listening day and I cannot begin to think what it would be like to not be able to receive it as a broadcast. I truly do not understand the benefit of having these other stations at this point ,but do know the loss that will result if the FM translator is no longer received. Thank you for allowing this comment to be read.
